

CODING SERVICES

Highly accurate, thorough, and flexible support

Improve the throughput and results of your revenue cycle process with the help of our highly trained and credentialed coding team.

High quality, secure, stable, and cost effective.

Aquity delivers measurable healthcare business improvements through a deep understanding of the clinical documentation business process, industry leading technology, and unparalleled service.

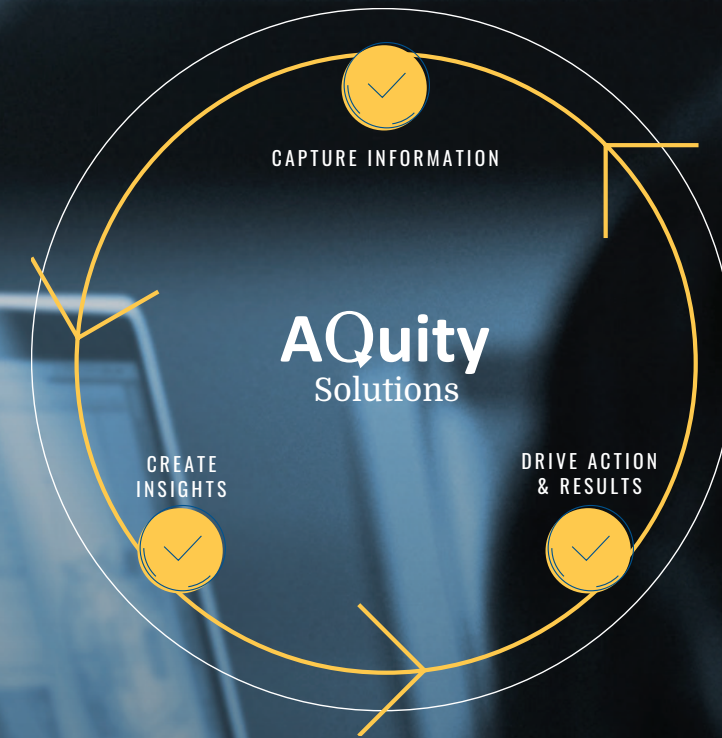

There's a reason Aquity delivers improved financial outcomes — it's because we have better tools, better processes, and a better understanding of how payers react to submitted claims. Our coding services deliver cost-effective Key Performance Indicator (KPI) results. Working closely with your team, we ensure you stay ahead of changing government and payer requirements; delivering workflow control, cost, quality, and turnaround time results that produce maximum allowable reimbursements and minimum payer rejects.

Aquity's highly cost competitive coding services are backed by industry leading Fluency For Coding™ (FFC), CDI, and other technology-enabled quality checks supporting an endless loop of feedback to our AHIMA and AAPC certified coders. Our proprietary integration of service process and technology enabled quality reviews reliably yield quality scores that are measurably above national averages.

Our coding services help clients achieve improved financial outcomes. We support the full range of client types (from large multi-campus IDNs and university health systems to small community hospitals and physician practices) and case mixes (inpatient, outpatient, and pro-fee) with full outsourcing, staff augmentation, or PRN support. And with Aquity, clients benefit from crystal clear visibility of their RCM workflow and the resulting KPIs that determine the health of their healthcare business.

Our key differentiators include:

- Millions of inpatient, outpatient, and pro-fee cases annually
- Keep current with changing compliance needs
- Complete process visibility
- Exceptional KPI focused partnership

Our Workflow

BETTER PEOPLE + BETTER TOOLS = BETTER RESULTS

Aquity Solutions: We're better at the business of healthcare.
